Capturing your special moments

Jo & Kane
28th April 2023

Harley & Lydia
8th January 2021

'Jodie did our wedding. She was very professional and made some beautiful memories for us to keep. Very friendly and easy to get along with. Thank you so much.'

Trephina &

26th November 2022

'My partner and I had a commitment ceremony earlier this year and Jodie was our photographer. From the get go, Jodie was fantastic. She was super easy to work with - very attentive and collaborative in getting a sense of our ideas and ideal style, as well as being responsive and organised. Jodie was very flexible in working with our budget and timeline. Jodie did an amazing job of capturing us on the day and gave us some photos we'll treasure for years to come. Can't recommend Jodie enough!' - Trephina.

with. Thank you so much.'

It's my mission to preserve the best day of your life within the images and fleeting moments that I capture for you. It is my hope that the photos I capture will be hung on your walls and placed on your mantel pieces and be there as a reminder of the love and joy you share.

I want you to enjoy revisiting your photos & album and feel the joy & hope you held towards each other for your future, and to have the courage to hold onto your vows through thick & thin. I have a strong desire to produce images that will be kept as heirlooms for your children & their children to cherish well into the future, and for them to connect with you through your photos - & feel your love story.

I entered the Wedding Industry as a photographer in 2020. I have had the absolute pleasure of capturing some beautiful weddings so far. I have been a bride too (2019) so I understand greatly how important your day is to you! Each couple is unique so I am aware that each wedding will be different. It's my job to decipher your unique vibe and capture it.

If you're considering me as your wedding photographer, please know how honoured I am with that decision. I'm a good listener, and I have an extensive collection of posing ideas for those that want the classic bride and groom portraiture. I will be attentive to your needs, style and vision for your wedding day and photos.

I'm going to be looking for those special fleeting moments, the raw emotions, the togetherness that is seen on the day!
